Marcin Ukleja

TL;DR

Designer
I create digital products, work with complex design systems, and strive for perfection in every detail.

Developer
I build Figma plugins, iOS apps, and web apps. My current focus is the FigLint plugin, which checks design files for common issues, layer-by-layer.

Educator
I teach design and digital tools, train organizations, and share insights on social media about design systems and Figma.

Consultant
I help design teams and individuals streamline their design systems and workflows using Figma.

Miscellaneous courses and trainings

Skills

UX/UI
Figma & more…
I'm experienced with many design tools, but I currently focus on Figma.

Development
**HTML, CSS, JS/TS,
Swift, SwiftUI**

Language
Polish, English

Interests

Architecture   Bike touring   **Coding**
Color theory   Data visualization
Design systems   DIY   Education   New tech
Typography   **Visual design**

Figma plugins

✓ **FigLint**
Check your designs and identify common issues, layer-by-layer.

Component Description Manager
Manage descriptions of all your components, in one place.

Styles to Variables Converter
Convert existing color styles into new variables.

Thumbnail Setter
Quickly convert any selection into a thumbnail; in both Figma and FigJam.

Digital products

VYBE Map
App to explore and share vibes of places.

xMirror
Interactive smart bathroom mirror.

1Banana
iPhone app for tracking daily calorie intake.

minders
A minimalist reminders app for iPhone.

LET'S TOUCH
Web app for real-time digital touch.

Writing

Architecture vs. UX Design
My thoughts on designing for the user in the real and digital world.

Text Different
Exploring alternative texting experiences for messaging services.

Miscellaneous
Articles about new technologies, tools, trends, personal projects & more…

Speaking

System Matters
How systematic thinking shapes better, scalable design.

"It's Just a Tool"
Rethinking the role of tools in the design process – beyond just getting the job done.

DesignOps Plugins at Allegro
Custom Figma plugins powering design at scale.

Architecture vs. UX Design
Designing for the real and digital world.

VYBE Map Case Study
A walkthrough of design concepts behind a real-time, mood-based mapping app.

1 picture > 1000 words
Visualizing data to rethink linear content.
